## The Smart Choice

### Fully Sealing System

prevents fluid contamination and protects your workplace from accidental spills

### Innovative Color Coding

and labeling systems improves fluid identification and minimizes the risk of topping off equipment with the wrong fluid

### Square Shaped Drums

have large area for labeling requirements and fit neatly on shelves

### Interchangeable Nozzles

allow the size of the pour spout to be changed without having to buy another lid

### Quick Fill Port

1" wide opening with cap allows drums to be refilled without removing entire lid. Minimizes exposure to airborne contaminants

### Large Carrying Handles

located on the top of iCan® lids provide a safe and easy way to carry iCan® containers

### Light-switch Style Breather Vent

gives users the ability to grasp handle with all five fingers, unlike containers that require the user to hold a vent button down at all times

### Adhesive iPouches®

allow important documents like MSDS sheets to be stored in the clear vinyl envelopes and affixed onto iCan® drums

### Smart Accessories

and the iCan® Pump allow users to dispense fluids in confined areas

*"...how practical is it to go to the extra expense to deliver a clean, high-quality lubricant when this integrity is subsequently adulterated by careless handling and storage practices?"*
